RANGE COMPOSITION

Some Zanussi dishwasher models can perform to their full potential, if combined with the Zanussi Handling System range. The modular system allows to design ergonomic and reliable solutions to handle, transport and sort kitchenware, obtaining the most effective flow in the dishwashing room. The Basic range has been specifically designed to create an ergonomic and efficient small dishwashing area to satisfy specific capacity and space requirements. The range consists of loading and unloading tables, prewash tables and sorting units.
